EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone interview with Marcia Rodgers on November 6, 2003.
3. The application has been amended as follows:
 - In claim 25, line 3, delete "after step (c).".
 - In claim 25, line 3, insert —tufted— between 'said' and 'base'.
 - In claim 26, line 1, delete "25" and insert therein —24—.
 - In claim 27, line 3, delete "after step (b).".
 - In claim 27, line 3, insert —tufted surface— between 'said' and 'covering'.

Reasons for Allowance

4. Applicant's amendment filed on June 26, 2003, has been entered. Said amendment is sufficient to overcome the claim objection set forth in section 1 of the last Office Action. Additionally, said amendment is sufficient to withdraw the 112, 2nd rejections set forth in sections 2-5.
5. As indicated in the last Office Action, claims 1-29 contain allowable subject matter. It is not known in the prior art to make a tufted surface covering by forming a base or primary

backing of thermosetting particles and a binding agent, needle tufting said base of bonded polymer particles. Additionally, the product made therefrom, a tufted article having a primary backing of polymer particles bonded together with a binding agent, is not known in the prior art.

6. The above examiner's amendment was made in order to correct lack of antecedent basis issues and to correct the dependency of claim 26. Therefore, claims 1-29 are now in condition for allowance.

Conclusion

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
